Tomáš Mikula

UI/UX Design

Thanks to my PhD studies in computer science and cognitive psychology, I see myself as an perfect bridge between creative and technical teams. I can provide understanding of technical part of the project while maintaining strong focus on end user.

Skills

- UI/UX Design and visualisation
- Figma/Sketch and similar design related tools
- strong programming skills in Python

- communication with technically oriented people
- academia experience (teaching, research, etc.)
- attention to detail

Experience

Dept. of Computer Science - Palacký University
2018 - present

UI/UX design, print design

User interfaces course
2018 - present

Teaching UI/UX course at Palacký university, author of lecture materials.

beecode.io
2016 - present

UI/UX design, external consultations – Unizone, Noc vědců and other projects

Education

Ph.D. Department of Computer Science, UPOL 2018 - present
Relational data and cognitive psychology

MSc Department of Computer Science, UPOL 2016 - 2018
Master thesis - Award winner of Dean of the Falculty of Science UP

BSc Department of Computer Science, UPOL 2013 - 2016

Olomouc, Czech Republic
